MuShield®

AS:9100D | ISO 9001:2015 Certified | ITAR Registered Company

The MuShield Company Inc. is actively seeking dynamic fulltime employees and interns to help strengthen and develop our quality, mechanical engineering, and sheet metal manufacturing departments.

At MuShield, you will receive hands on experience using state-of-the-art equipment found in our technologically advanced facility. MuShield continually strives to improve our capabilities and efficiencies by making capital investments in the latest technologies and applicable trainings.

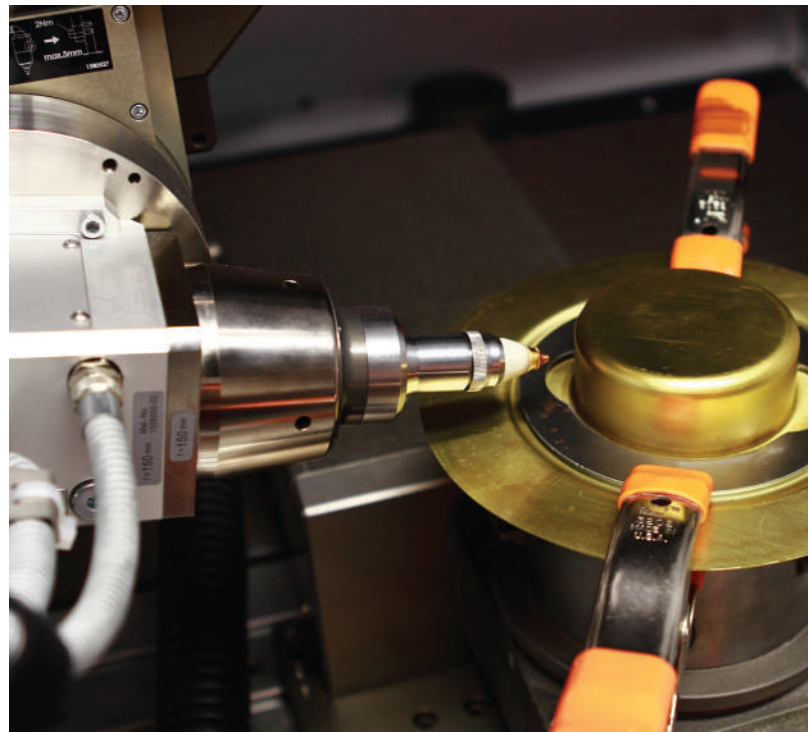

Have a machine or manufacturing process in mind that you think will help make MuShield even more efficient? Don't hesitate to speak up! We are a small company that listens to our employees and treats everyone with the utmost respect. When you're a part of our team, you're a part of our family. We want to know what will help YOU make US a better company! We value everyone's input in the quest to bolster the work we do across the board.

Some preliminary questions:

- Are you interested in working on magnetic shielding and other sheet metal piece parts that may be headed to space?
- Do you want to be involved in the latest technology used in defense systems and guided missiles?
- Are you intrigued by niche manufacturing methods that produce unique and challenging shapes?
- Do you want experience designing and manufacturing parts for the defense, aerospace, medical and/or aviation industries?

If you answered "yes" to any of those questions, or if they piqued your interest at all, we want to hear from you. We are constantly tasked with new challenges and complex manufacturing designs, and our talented staff works to meet or exceed our customers' expectations each and every day. We want YOU to join us in our success!

So, whether you're a seasoned vet of the trade, or a student looking to gather some invaluable experience for your career trajectory, MuShield has vast opportunities for personal and collective growth!

About MuShield Company Inc.

For over sixty years, MuShield has been a worldwide industry leader in manufacturing custom magnetic shields, precision sheet metal fabrication and Hydroforming. MuShield was the first manufacturer in the magnetic shielding industry to be ISO 9001 certified more than 10 years ago. With the company's latest ISO9001:2015 and AS9100D certifications, MuShield's manufacturing operations are reliable, repeatable, efficient, and widely respected.

With a customer base that includes long standing relationships with Raytheon, Honeywell, Boeing, GE Medical, Johnson & Johnson, Northrop Grumman Corp., NASA, Jet Propulsion Laboratory, NIST, Baker Hughes, and Molex, MuShield has long been a trusted industry asset, and a company that has always positioned itself as being a step ahead of the curve.

Manufacturing Capabilities

- Conventional Sheet Metal Fabrication
- 5-Axis Laser Cutting & Trimming
- CNC Machining & Turning
- Hydroforming – Deep Draw
- Hydrogen Annealing
- Laser Welding
- Rolling
- Rotary TIG Welding
- Spinning
- Spot Welding
- Stamping
- TIG Welding
- Tooling Manufacturing
- Turret Punching

Consulting + Engineering Services

- Magnetic Shielding Design
- Design for Manufacturing Efficiencies - All Alloys
- Special Process Development
